# Assembly accessories for agricultural tyres

## Basic range "Agricultural tyre mounting sector"

 8 8 4 2 6		
Item no.	Item	Description
472.00.807	Assembly paste	Tyre mounting grease 4.0 kg\Tigre Michelin
472.00.815	Brush	Special brush for assembly paste
472.00.730	Valve screwdriver	for loosening stuck valve inserts for standard and EM valves
472.00.760	Valve retracting tool	Quick valve pliers\Valve remover for Snap in
472.00.612	Tyre lever	Large tyre lever\1,100 mm length\truck, AS, EM, forestry
600.05.431	Bead holder	facilitates assembly
472.01.038	TR 618 truck rim valve	Water valve for screw fixing
472.01.039	TR 618 truck rim valve	Snap in
472.00.570	TR 415 car valve	Snap in
472.01.035	32 MS / TR 575 truck rim valve	32 MS truck rim valve for screw fixing
472.01.040	41 MS/9.7 truck rim valve	41 MS truck rim valve for screw fixing
472.01.050	70 MS/9.7 - 27 truck rim valve	70 MS truck rim valve for screw fixing
472.01.060	90 MS/9.7 - 27 truck rim valve	90 MS truck rim valve for screw fixing
472.00.788	Demounting fluid	Demounting fluid \ Easy Tyre Off \ 400 ml spray can prevents bead damage
499.99.020	Small inflation aid	Bead Bazooka BB9XL\Air cannon with 10 bar pressure -\ for tyres up to 22.5
472.02.121	Large inflation aid	Auto Booster inflation aid - 38 litres boiler capacity
472.01.010	Hand-held tyre gauge	Calibrated, with membrane pressure gauge, 80 mm hose, Schrader valve lever plug and actuating lever for filling, pressure release and testing - Measuring range 0-10 bar/140 lbs
472.02.126	Automatic pump	incl. 7.5m hose + lever plug, pressure-setting function, digital display
472.00.780	Talcum, 500g powder dispenser	fine-grained, for mounting tubed tyres
472.00.980	Hanauer Maus	Water filling and draining valve
472.00.740	Valve trap coil	Facilitates the insertion of hose valves into the valve hole
472.00.965	VG8, car, truck, AS torque plug nipple	for normal valves/clip plugs
472.00.975	VG12, EM torque plug nipple	for EM valves/clip plugs

Tyre mounting paste

Special brush for mounting paste

Valve screwdriver

Valve retracting tool

Tyre lever

Bead holder

TR 618 truck valve (Snap In)

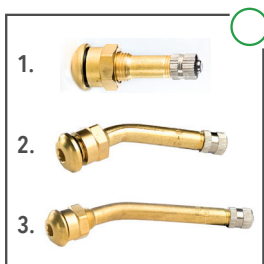

TR 618 truck valve (screw valve)

TR 415 valve

32 MS truck valve

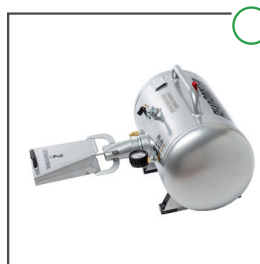

1. 41 MS truck valve  
2. 70 MS truck valve  
3. 90 MS truck valve 90

Demounting fluid

XL Bead Bazooka

Auto Booster inflation aid

Hand-held tyre gauge

Automatic pump

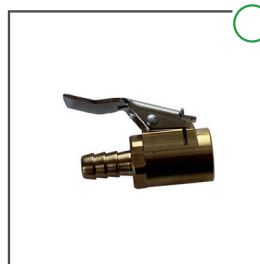

Talcum

Hanauer Maus

Valve trap coil

Torque plug nipple

# Assembly accessories for agricultural tyres

## Expanded range "Agricultural tyre mounting sector"

<div>8 8 4 2 6</div> <div></div> <div></div>		
Item no.	Item	Description
600.05.505	Wheel-lifting and changing cart	Craftsman XL premium model suitable for max. 1,200 kg load-bearing capacity
472.02.130	Standard concentricity testing device	Concentricity testing device for AS and implement tyres
472.02.135	Premium concentricity testing device	HAWEKA concentricity testing device, computer-aided by laser technology
412.95.006	Airbooster case	Airbooster tyre inflation and ventilation set in carry case for tyre pressure control system
472.00.785	Bead adhesive	prevents tyre moving
600.04.010	Tyre sealant, 1.0 litres	Bottle
600.04.015	Tyre sealant, 25 litres	Canister
600.04.025	Tyre-sealant pump	suitable for 25 l canister
472.00.400	Vulcanising liquid, 50 g tube	for hose repair
472.00.405	Vulcanising liquid, 175 g tube	for hose repair
472.00.430	BL special cement	225 G
472.00.440	Chemical roughener, 250 ml bottle	Liquid buffer

## Wheel-lifting and changing truck

### The solution for safe and quick wheel changes

The Gothia Redskamp wheel-lifting and changing truck meets the highest quality demands. It enables wheels up to 1,200 mm wide and 1,200 kg in weight to be changed by just one person. With the aid of the pump lever, the wheel is simply lifted to the exact mounting height and easily fixed to the appropriate mounting position with four rollers. During mounting and demounting, the wheel is secured against falling over and protects the employee from physical harm such as overexertion and injuries.

#### Two models are available:

##### **Craftsman** (Item no. 600.05.500)

For wheels up to 2,200 mm diameter and  
800 mm width

##### **Craftsman XL** (Item no. 600.05.505)

For wheels in any dimension with a width  
of up to 1,200 mm

#### The advantages:

- Time-saving and safe wheel change
- Can be operated by one person
- First class quality made in Sweden

Concentricity testing device  
Standard

Premium concentricity  
testing device

Air booster

Bead adhesive

Tyre sealant

Tyre-sealant pump

Vulcanising liquid

Special cement

Liquid buffer

# SICE Assembly machine S 60

Item no. 600.05.350

## The new, completely hydraulically controlled tyre mounting machine!

- suitable for tyre outer diameter of 3,000 mm and a wheel width of 1,800 mm
- up to 3,000 kg wheel weight

Example illustration

## The largest assembly machine for the toughest jobs

- all movements fully hydraulic
- the largest assembly machine
- stable and robust

# SICE S 560 assembly machine

Item no. 600.05.320

## The topseller for all sizes in forestry and agriculture

- suitable for tyre outer diameter of 2,600 mm and a wheel width of 1,500 mm
- up to 1,700 kg wheel weight

Example illustration

## SAFETY FIRST!

Safety for all employees when pumping tyres with a pump cage!

I would be pleased to advise you on the subject of assembly machines and pump cages.
